

# Local Food Cards

44 photos to inspire people to  
share funny stories and tales  
about food.

This deck was co-designed by experts with lived  
experience working with Leapfrog, a research project  
based at Lancaster University.

## GAME IDEA:

# Steal a Story

**3** If another player has something to add to the story they can steal the card and add their own story.

**1**

Deal all the cards facing down. To start, one player takes a card.

**4**

When no one can add to the story, the last player with the card keeps it.

**2**

The player tells a personal story relating to the food on the card.

**5**

Play continues with a new card.  
The winner is the player with the most cards at the end.

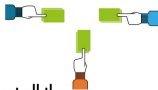

## GAME IDEA:

# Hidden Stories

**3** The first player must now tell a story about the picture on the card.

**1** Deal out all the cards equally between players. Keep hands secret.

**2** The first player picks a card from the player to their left, placing it face up on the table.

**4** If the player successfully tells a story, then the card remains on the table. If they can't, then they must add the card to their hand.

**5** Play continues to the left.

The winner is the first player to get rid of all their cards.
